Explanatory notes

This application is to consolidate a water share. Consolidating water shares will:

- Cancel the individual water shares being consolidated;
- Create a new water share with a volume equivalent to the combined volume of the water shares being consolidated; and
- The new water share will be owned by the same people and in the same manner as the water shares being consolidated.

Requirements for Consolidating Water Shares

Water shares can only be consolidated if:

- Each water share is owned by the same people and in the same manner;
- The water shares have the same reliability and the same water system;
- The water shares have the same trading zones;
- The water shares have the same delivery system;
- The water shares are linked to the same allocation account (ABA);
- None of the water shares are encumbered by mortgages or a limited term transfer; and
- The water shares are associated with the same water-use licences and registrations or all are not associated.

Contact your water corporation if you are unable to consolidate a water share because it is encumbered.

Allocations

All carryover and seasonal allocation against the water shares being consolidated will be against the consolidated water share.

Lodging the application

All owners of the water shares being consolidated must sign the application.

Companies must attach an ASIC company extract that is less than 12 months old. Two directors or one director and secretary are required to sign.

Incorporated associations must attach an incorporated association extract that is less than 12 months old. The listed secretary is required to sign.

The water corporation will notify the water share owners and the lodging party by letter of the new water share when the application has been processed.

What is happening under the Water Act 1989

This for is an application, where applicable, for the Minister's approval to:

- Consolidate water shares (under section 33Z(1)); and
- Give a standing direction (under section 33TA).
